VELOCITY BUCKS

FTC #39347 — ENGINEERING IN MOTION

Alone you go fast, but together you go further.

01 WHO WE ARE

Velocity Bucks #39347 was born from the collective experience of a group of young robotics enthusiasts with prior experience in FIRST. Although our team number is new, our working philosophy and our commitment to technical excellence are not.

This year marks the beginning of a new era: a structured, professional organization with clear goals both on and off the playing field.

02 WORKING PILLARS

01

SPEED

We act with agility and determination. Every decision counts and time is our most valuable resource.

02

EXCELLENCE

We don't settle for average. Every design iteration and every line of code must outperform the last.

03

TEAMWORK

Our achievements are collective. The synergy between disciplines is our greatest competitive advantage.

04

TECHNICAL TRAINING

We learn by doing. Every season is an opportunity to master new technologies and methodologies.

03 ENGINEERING

High-performance design, iteration and manufacturing for the competitive challenge.

04 COMMUNITY IMPACT

01 · EDUCATION

COMMUNITY STEM WORKSHOPS

We bring robotics, programming and 3D printing to public schools and youth centers, democratizing access to technology.

02 · COMMUNITY

FIRST MENTORING & OUTREACH

We advise rookie teams on mechanical design, Java programming and team management to strengthen the FTC ecosystem in our region.

03 · INNOVATION

MORE THAN ROBOTS

We promote the values of FIRST — Gracious Professionalism and Coopertition — showing that competition and camaraderie go hand in hand.
